Circular Details

Job Description: We are looking for a passionate and driven Mobile App Developer Intern to join our development team. As an intern, you will work closely with our experienced developers to design, develop, and test mobile applications for iOS and/or Android platforms. This is a fantastic opportunity to enhance your coding skills, work on real-world projects, and contribute to the success of our products.

Key Responsibilities: Assist in the development and maintenance of mobile applications for iOS and Android. Collaborate with the team to design and implement new features. Debug and troubleshoot issues to optimize app performance. Participate in code reviews and contribute to best practices. Stay up-to-date with the latest trends and technologies in mobile development.

Requirements: Basic knowledge of mobile app development (iOS: Swift/Objective-C, Android: Java/Kotlin). Familiarity with mobile development frameworks and tools (e.g., Xcode, Android Studio). Understanding of RESTful APIs and integrating third-party libraries. Strong problem-solving skills and attention to detail. Ability to work independently and as part of a team. A portfolio or examples of previous projects (personal or academic) is a plus.

Preferred Qualifications: Experience with cross-platform development tools like Flutter or React Native. Knowledge of UI/UX design principles. Familiarity with version control systems (e.g., Git).

If you're excited about mobile app development and eager to grow your skills, we'd love to hear from you! Please send your resume, portfolio (if applicable), and a brief cover letter

Join PixelX Solutions and take the first step toward an exciting career in mobile app development!
