PixelX Solutions

Circular Details

Job Description: We are seeking a motivated and enthusiastic PHP Developer Intern to join our development team. As an intern, you will work closely with our experienced developers to design, develop, and maintain web applications using PHP. This is an excellent opportunity to enhance your coding skills, work on real-world projects, and contribute to the success of our products.

Key Responsibilities: Assist in the development and maintenance of web applications using PHP. Collaborate with the team to design and implement new features. Debug and troubleshoot issues to optimize application performance. Participate in code reviews and contribute to best practices. Work with databases (e.g., MySQL) to manage data effectively.

Requirements: Basic knowledge of PHP and web development. Familiarity with HTML, CSS, JavaScript, and jQuery. Understanding of database management systems (e.g., MySQL). Strong problem-solving skills and attention to detail. Ability to work independently and as part of a team. A portfolio or examples of previous projects (personal or academic) is a plus.

Preferred Qualifications: Experience with PHP frameworks (e.g., Laravel, Symfony). Knowledge of version control systems (e.g., Git). Familiarity with RESTful APIs and integrating third-party services.

If you're passionate about web development and eager to grow your skills, we'd love to hear from you! Please send your resume, portfolio (if applicable), and a brief cover letter

Join PixelX Solutions and take the first step toward an exciting career in web development!
